TOLL THE BELL, THE BRAVE ARE SLEEPING.

BY W. C. HOSMER

Toll the bell, the brave are sleeping And their swords are sheathed for ever With our sorrows and our weeping We can wake them never. Beat the muffled drum, ye mourners! For their proud career is o'er,

To their homes no more. Toll the bell! the field of honor Saw our best and bravest perish, Let us, though a cloud is on her, Our beloved country cherish.

From the battle field returners

Let the native land they wrought for Rear the stainless marble high, To the glorious realm they fought for They have breathed "good by." Toll the bell! our dead are slumbring

On a thousand fields of glory;

Gallant victims, far outnumb'ring Hosts of ancient story. Let a solemn oath be taken That their names shall perish never; Our brave Union stands unshaken And exists forever.

BOY LOST. He had black eyes, with long lashes, red cheeks, and hair almost black and curly. He wore a crimson plaid Jack et, with full trowsers buttoned on; had a habit of whistling, and liked to ask questions; was accompanied by a small dog. It is a long time since he disappeared. From recent events, South and north, it is clear that it will prove a fatal blunder to his administration, unless he abandons it as the issue before the people. The old contests in England between King and Parliament are full of instruction on this subject. Had Mr. Johnson taken our friendly advice, and made the distinguished features of his administration a vigorous foreign policy, and a sound financial system, he might ere this have become as popular a President as Andrew Jackson. He has yet a fair field before him in which to retrieve his misfortunes. You are just starting in life with the world all before you, when and how to choose Beware how you connect your fortunes with a decayed and dishonored party, indelibly stained with treason, and upon whose tombstone the historian will write; "False to lib erty, false to its country, and false to the age in which it lived." The democratic party has committed a crime for which history has no pardon, and the memories of men no forgetfulness; whose colors grow darker from age to age and for which the execration of mankind becomes more bitter, from generation to generation.

REPRESENATION.

A new era has arisen. Slavery has ceased to exist. The present provision of the constitution recognizing "three-fifths of all other persons," mean ing slaves, has become a nullity. The Constitution no longer admits the antithesis of "free persons" and "all other persons." The Constitution must be changed to recognize this existing fact. If the freed population of the south and of the Republic are counted into the representation, they must have the elective franchise. Justice, right, and the very salvation of the nation demand it. Enumeration of the freedmen without their access to the polls, would be representation, not of them, but of the disloyal, rebel majorities of the south. Equality at the polls and representation must go hand in hand. They are political Siamese twins. By the terms of the proposed Constitutional amendment, the rebels gain no increase of political power as the result of the rebellion. If they don't choose to enfranchise the blacks, these blacks are not counted in. A white man has no right to vote for two black men, especially when they do not give their consent. A rebel cannot thrust his superior political power into the eyes and faces of northern mudsills and claim thereby our submission to all his imperious demands. We appeal to any candid democrat-are you willing to receive the rebel states with a larger representatian than before the war, and hence increased political power? We wish you thoroughly to understand it The old rule of representation is, one member of congress for every 120,000 free inhabitants, and slaves counted a three-fifths their number. All slave are now free, so that the remaining two fifths are now counted in. South Car olina, Mississippi and Florida, are now entitled to 12 members of congress, although their united white population is only 722,346. Michigan has a population of 739,799, and is only entitled to

Every man who feels the injustice of to have it removed from the Constitution, but will be zealous to urge upon his friends and neighbors to "go and do likewise," In this matter let us be divested of partizanship and do that which is right. A BODY CALLED, OR WHICH AS-SUMES TO BE THE CONGRESS OFF THE BE UNETTED STATES.29

The above is the language of the President. What does he mean?-Nothing more nor less than revolution! He wishes to impress upon the people that Congress is not a legal, valid body so as to enable him the more effectually to carry out his revolutionary plans. This was the course pursued by Napoleon prior to his coup de ctat. To whom does he address these words? To the delegates of the Philadelphia convention, in the light of open day, and he means that the poison, if possible shall permeate and be absorbed by the people, and thus prepare them for revolution. Mark them again:

The Doctor's journeyings through all parts of the country, afford him unlimited opportunities of attending college clinics, witnessing the operations of the most eminent surgeons of the day, and observing the treatment and practice in the different hospitals and other institutions, as the asylums for the insane, &c., and also the influence of the different localities and climates in causing and curing disease—such epportunities as are enjoyed by very few in this world. That he has the ability to avail himself of them, may be inferred from the crowded and enthusiastic aut'ences that everywhere attend his Lectures—audiences composed largely of the clite of the cities and villages in which they are delivered, and that invariably continue to increase in both numbers and intelligence, the lenger the course continues; that he has endeavored faith(n.ly to improve them is evident, from the throng of patients that may be found at all hours of the day in his reception rooms, which are often full core before he rises in the merning and continue from New York, where he spent two weeks selecting and purchasing a large stock of goods well adapted to the wants and tastes of the citizens of Ypsilauti and vicinity, which we will

Similar dialogues occur at the Doctor's door sometimes ten to twenty times a day, and sometimes his secretary sits at the door all day to prevent the approach of any, save those who hold tickets of appointment. LET US RATIFY THE THUNDER FROM MEAINE.

There will be a good old-fashioned Rally at Hewitt Hall on Friday evening next, to Ratify our State and Congressional Nominations, and send back a proper response to the thunder tones of the "Boys in Blue" from Maine. GEN. CARL SCHURZ will address the people. He will appear under the auspices of the "Michigan Boys in Blue." The people of the North are determined that a Southern Rebel shall never exercise superior political franchises to a Northern Patriot.

Rev. Dr. Binney. This much esteemed missionary preached at the Baptist Church last Sabbath morning. It was a matter of universal regret that the weather prevented a larger attendance. The sermon was one of great power. The theme was the conquest of the internal and external world by faith. Fighting the world, or simply resisting it, is not overcoming, but so using its pleasures, its joys and its wealth as not to abuse. By a sanctified faith, a will nerved by divine power, grasping the world and laying it as a holocaust at the feet of Jesus. The discourse was calculated to set every hearer to thinking. A happy incident was connected with his visit. Mr. S. M. Loveridge, detained at home on account of sickness sent a note, wishing the doctor to call. He did so, and on parting Mr. L. presented him with \$100 for the Theological School at Rangoon, Burmah.

One of our citizens, sold out last Fall and went to Kentucky. He has returned well cured of old Kentucky. He says it is a fine country to live in-good soil, and genial climate. But there are too many rebels, alias democrats there to allow a Northern man to live in the State. He was notified by one of these democratic committees to leave. They would not patronize him. He wore at one time a soldiers coat with the buttons off, but an ex-rebel soldier ordered him to take it off, declaring he should not wear a Federal garment in Kentucky. Our staunch Union friend told him to take it off if he could. He says a Northern man cannot do business there. Such is democratic rebel rule under "my policy."

Soldiers Meeting. Down with the traitor, up with the stars. Rally round the flag boys, rally once again. Shouting the battle cry of Freedom."

There will be a meeting at Samson's Hall this Saturday evening of the soldiers and sailors who are opposed to giving traitors superior political privileges to Union Soldiers who fought and bled on many a battle field, and were starved at Richmond and Andersonville. Rally, boys, for the good old flag and your country once more. Gen Carl Schurz will speak under the auspices of the "Boys in Blue" next Friday evening at Hewitt Hall. Let us have a rouser!

Temperance. Mr. Wright gave a powerful speech at Hewitt Hall last Tuesday evening. The weather was not favorable, but there was quite a turn out. There is a good deal of persevering enthusiasm in the Good Tem-

We would call attention to Dr. Mattocks advertisement in another column. Dr. Mattocks is an old experienced physician and while stopping with Mr. John M. Sweet, three miles west of Ypsilanti, a few weeks he tenders his services to any who are suffering with chronic disease, he claims to cure in all cases where the vital organs are not broken down with ulseration, his treatment is mild, all vegetablee syrups which act chemically on the disease, the most reasonable doctrine yet advanced, do not fail to call on him while he is here. It will not cost anything to consult him.

PROCRASTINATION IS THE THIEF OF TIME.—By delaying and forgetting to have a supply of Coe's Dyspepsia Care in the house, ready for immediate use, you may have to suffer, for many hours, pain and distress in the stomach. which would be immediately cured if you already had it on hand, ready for mmediate use. It is immediately cured permanently Dyspepsia and all of its kindred troubles.

REASONS WHY The AMERICAN WATCH, made at Walt

ham, Mass. is the best.-It is made on the best principle. Its frame is composed of solid plates. No jar can interfere with the harmony of its working and no sudden shock can damage its machinery, Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly

made. At the begining of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign im positions—the refnse of foreign factories whiah are entirely unsaleabie at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so

many years of public trial, we now make more than half of all the watches sold in the United States, and that no others have given such universal satisfaction. While this de partment of our business is continued with in creased facilties for perfect work, we are at present engaged in the manufacture of watch es of the very highest grade known to chronometry, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilties. We have erected an addition to our main buildings express for this branco of our business, and have filled it with the best workmen in our service New machines and applicants have been constructed, which perform their work with con summate delicacy and exactness. The choic est and most approved materials only are used and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for less money than foreign watch-es, but we do assert without fear of contradiction that for the same money our product is incomparably superior. all our watches, of whatever grade, are fully warrented and his warrantee is good at all times against us or agents in all parts of the world. Caution.—The public are cautioned to buy only of respectable dealers. All persons sell-

ing courterfeits will be prosecuted.

FACTS ART STUBBORN THINGS!

Commonwealth, Wilmington, Delaware, 3th of April, 1859:

"An English gentleman, formerly connected with the British Army, and who styles himself the 'English Botanie Physician,' has of late gained an extensive reputation here by his skill in curing all manner of complaints. Some of his patients I have conversed with, and they proneunce his remedies and mode of treatment as very superior. Some have been restored as if by magic. The medicine he used is distilled by himself from various herbs possessing rare curative properties.

"While acting in the army he devoted his leisure moments to a thorough study of the effects produced by certain zendicinal roots and herbs on fall manner of diseases. It seems he has found a sure and speedy remedy for all the 'fills that flesh is heir to,' His practice is already extensive, and is daily increasing. In the complaints to which females are subjected he has no equal, as a large number here have testified that they owe not only their present good health, but their lives, to the skill of this English Botanic Physician."

GOOD NEWS FOR SINGLE MEN CONTEMPLATING MARRIAGE.

GONTEMPLATING MARRIAGE.

Hear what the Baltimore correspondent of the Odd follow, Boonsboro', Marykazd, said on Thursday, the 31st of May, 1830:

"Numerous cures of diseases caused by early indiscretion naving been performed by the English Botanic Physicians, I feel it may duty, having a knowledge of them, to state the fact, believing that in doing so I may do a service to the suffering. One such in particular—that of a young mass in this city—is worthy of note. If he had become the victim of a habit, the mere allusion to which causes a shudder, and after years of suffering and doctoring gave up all hopes of recovery. He wished to marry, and was dearly beloved by as sweet a girl as ever lisped words of affection, but he was fearful, nervous, and prostrated. He dared not wed on account of the shattered state of his system. He sought relief at the hands of the Botanic Physician, and, astonishing as it may seem, all the bloom and vigor of youth has returned, and he is now the hoppy father of a pair of bright boys."

NEWS FOR THE LADIES. A PREVENTIVE TO HAVE CHIL-DREN.

Hear what the Cincinnati Weekly Press says on the 6th of March, 1862:
We are decidedly opposed to drugs and to advertised remedies for the prevention of having children, but we feel it our duty to acknowledge a benefit from any and from every source when it is for the relief of suffering humanity. A fact has come to our knowledge that ought to be promalgated and widely circulated for the benefit of those ladies whose delicate health makes is necessary to prevent any increase of family. benefit of those ladies whose delicate health makes it necessary to prevent any increase of family.

About twelve months after marriage, a lady of our acquaintance gave birth to a daughter, but her sufferings were so great that her physicians despaired of her recovery. This made her dread the very thoughts of again becoming a mother. She tried every thing to prevent a repotition of her sufferings, but without succeeding. Two, years after marriage she was again confined, but her sufferings were so great that the child died, and her own life was despaired of. She was told by her family physician that if she had any more children he feared her life would be the forfeit. As all the remedies she had tried before had failed, she applied to the Botanic Physician, Dr. BAPHAEL,

FOR HIS PREVENTIVE TO HAVE CHILDREN.

His remedies had the desired effect; they not only prerented her from having children, but they also improved
her health. "To file fure, All things also improved
